

# Legal Register Environmental Health and Safety KAUTEX TEXTRON

## Project Description:

Establishment of task lists from applicable H&S laws and regulations for 8 sites in Germany, on-site control of implementation, establishment of action plans, continuous update of the legal register

## HPC Performance:

- Compilation of the precise requirements applicable for each site from H&S laws and regulations in a legal register
- Evaluation of licenses with regard to additional requirements
- On-site control of the implementation of requirements, documentation of the results in a legal register
- Establishment of action plans to implement open tasks
- Periodical 3-months-update of the legal register taking into account modified requirements, completed tasks and modified interior requirements

## Client Benefit:

- Ensurance of legal compliance
- Standardized detailed presentation of all sites in Germany
- Reduction of the internal work by task lists and action plans
