

Medical Surveillance, 15 sites, Italy

Apple Retail Italia S.r.l.

Service area	Value as of 2015	Project duration
Environmental Consulting, Workplace Health and Safety	€350,000	2014 - ongoing

Project description:

HPC was appointed by Apple to provide medical surveillance and health protection for staff at Apple Stores throughout Italy.

The management of a medical surveillance program provides several complex tasks such as managing sensitive data, coordinating specialized Occupational Doctors, updating staff data and managing health examination schedules.

HPC also supported Apple providing technical advice in a potential lawsuit, coordinating a flu vaccination campaign, participating to annual meetings and performing work-related risk assessments in the stores.

Further project data:

- 1,500 employees, 15 Stores in 11 cities throughout Italy
- Change orders for about 30,000 €

Purpose:

- Ensure compliance to national and corporate H&S regulations

Our services:

- Selection and appointment of Occupational Doctors and Medical Directors
